Exercise

- Write a program to calculate income tax payable of the user . Tax is calculate as per below table.

Total income	% of tax
Up to $9,525	0
$9,526 to $38,700	12%
$38,701 to $82,500	22%
> $82,500	32% + $1000

Tax payable = Income * (tax rate / 100)

```
else if( (income > 9525) && ( income <= 38700 ) )
{
    tax = income * 0.12;
}
```
